

1315

AC/DC Power Supply: 0-25 V, 5 A

Product Features:

0-25V @ 5amp
variable AC or
DC output

AC or DC
selection switch

Input surge
suppressor input
fuse protected
and output
overload
tripPower on/off
switch with
power on LED
indicator

Heavy duty
transformer

Rugged metal
case

Overview:

The 1315 is a rugged, general purpose AC and DC power supply with variable outputs of 0-25 V @ 5 A. This unique power supply is a low-cost, space-saving solution for applications requiring both AC and DC voltages. The 1315 is well suited for prototyping and school laboratory use and covers a wide range of circuit testing applications.

Specifications

Output 1	0-25 V, 5A
Voltage Output	AC/DC
Total Maximum Output	200 VA
Ripple	Less than 1 V
AC Input	110/220 V selectable
Dimensions (WxDxH)	9 x 6.5 x 11.75 in
Weight	16.3 lbs

WARRANTY

Innovative Training Solutions
